Eniram Tops Greentech Category in Deloitte Technology Fast 500 EMEA 2011

Finnish provider of data analysis software to the international shipping and marine industry attributes its meteoric 6,209 % revenue growth over the last five years to the sector's need to be cleaner, greener and more fuel efficient

Helsinki, Finland – November 30th, 2011 – [Eniram Limited](#), a provider of data analytics software for the shipping and marine industry, has topped the 'Greentech' category in the Deloitte Technology Fast 500 EMEA 2011, a ranking of the 500 fastest growing technology companies in EMEA.

This is in addition to being ranked Number 14 overall for EMEA based on Eniram's growth record over the last five years. Eniram grew 6,209 % during this period, compared with an average growth rate of 1,287% across all of the companies ranked in the Deloitte Technology Fast 500 EMEA 2011. As a result of this exceptional performance, Eniram was recently named the fastest growing company in Finland in the Deloitte Fast 50.

Eniram's CEO, Philip Padfield, expressed his delight not only at the company's relative growth performance across EMEA, but also specifically at leading the Greentech category. This highlights companies making a positive contribution to the environment through the strategic application of technology.

He commented, "Our software directly targets fuel consumption, using techniques such as dynamic trim optimisation to hone the way their fleets move through the water. Given the environmental pressures on shipping operators, not to mention the soaring prices of fuel, Eniram's solutions have particular resonance in the current climate. On average they lead to savings per vessel of 219,000 Euros a year (£188,000 or \$300,000 a year) which translates to 1,500 tonnes of CO₂ - the equivalent of the annual carbon footprint of 140 people."

"Making the Deloitte Technology Fast 500 is commendable in today's highly competitive technology industry," said David Halstead, Deloitte United Kingdom, partner in charge of the Deloitte Technology Fast 500 EMEA programme. "We congratulate Eniram on being one of the 500 fastest growing technology companies in the region."
